

● Reel-to-reel plating—metal reel/strips

<u>Properties:</u>	Plating "endless" metal rolls. Possibility of partial coating, i.e. one-sided, plating from one edge (to a controlled depth) or in stripes along the reel/strip.
<u>Coating with:</u>	Nickel, tin, gold and silver.
<u>Base material:</u>	Iron, stainless steel, copper, tin bronze alloy, brass or nickel silver.
<u>Thickness of layer:</u>	As required.
<u>Strip/reel width:</u>	Copper, nickel, silver and gold in widths up to 85 mm. Nickel and tin widths up to 130 mm.
<u>Application:</u>	Smooth or stamped strips, e.g. for contact pins, contacts, antennae, springs or electronics.
